

Name: John Mathew

Contact: (857)-340-3761 | Chicago, IL

Summary:

Front-end Developer with 2+ years' experience creating responsive, high-performance user interfaces using React.js, TypeScript, and modern CSS frameworks. Skilled in integrating RESTful and GraphQL APIs, optimizing frontend performance, and collaborating in agile teams to deliver seamless web experiences.

Education:

- Master of Science, Computer Software Engineering, Northeastern University, Boston, MA, 2025 (Expected)
- Bachelor of Management Studies, University of Mumbai, 2019

Skills:

- Languages: JavaScript (ES6+), TypeScript, React.js, Next.js, ASP.NET, HTML, CSS
- Frameworks & Libraries: ReactJS, Redux Toolkit, Vue.js, Vuex, Material-UI, TailwindCSS
- Tools & Skills: Jest, React Testing Library, Git, Postman, REST APIs, GraphQL, Linux, Bash Scripting, DevOps, Business Intelligence
- Cloud & DevOps: AWS, GCP, Terraform, Packer, Infrastructure as Code (IaC)
- Databases: SQL, MySQL, MongoDB, Snowflake

Experience:

Frontend Developer, Figma, Dallas, TX (Jul 2023 – Jul 2025)

- Developed responsive, interactive UIs using React.js, JavaScript, and TypeScript, improving user engagement by 25%.
- Converted Figma/Sketch designs to pixel-perfect web pages using HTML5, CSS3, and TailwindCSS for cross-browser/mobile compatibility.
- Optimized frontend performance with lazy loading, code splitting, and caching, reducing page load time by 40%.
- Integrated RESTful and GraphQL APIs for dynamic UI components, managing data fetching and error handling efficiently.
- Used Redux Toolkit for complex state management, simplifying codebase and reducing bugs.

Projects:

- E-Commerce Web Application: Developed a fully responsive e-commerce site with React.js, Redux Toolkit, and TypeScript; built reusable UI components with Material-UI; achieved 80%+ test coverage using Jest and React Testing Library.
- Personal Finance Dashboard: Created an interactive dashboard with Vue.js and Vuex for income, expenses, and savings tracking; ensured mobile-first design with CSS Grid and Flexbox; collaborated in GitHub workflows and sprint planning.
