

Name: Emily Carter

Contact: 321-555-7890 | San Diego, CA

Summary:

Creative Frontend UI/UX Engineer with 3+ years of experience designing and developing responsive, user-centered web applications. Proficient in React, JavaScript, and design tools to build engaging and accessible user interfaces.

Education:

- Bachelor of Science, Human-Computer Interaction, University of California, San Diego, 2021

Skills:

- Programming: JavaScript, TypeScript, HTML5, CSS3, SASS
- Frameworks/Libraries: React, Redux, Vue.js
- Design Tools: Figma, Adobe XD, Sketch
- Testing: Jest, React Testing Library, Cypress
- Other: Responsive Design, Accessibility (WCAG), Agile/Scrum

Experience:

1. **Frontend UI/UX Engineer, BrightWave Studios, San Diego, CA** (Aug 2021 - Present)
 - Developed responsive web applications using React and Redux, enhancing user engagement by 30%.
 - Collaborated with designers to translate wireframes and mockups into pixel-perfect, accessible UI components.
 - Implemented usability improvements and accessibility features following WCAG guidelines.
 - Built reusable component libraries and conducted unit/integration testing to improve code quality.

Projects:

- **E-Commerce Platform UI:** Designed and built responsive product catalog and checkout flows using React and Redux.
- **Dashboard Application:** Created interactive dashboards with dynamic data visualization components using D3.js and Chart.js.

Certifications:

- Google UX Design Professional Certificate
