Name: David Lee

Contact: 555-987-6543 | Austin, TX

Summary:

Experienced Cloud Engineer with 3+ years in designing, deploying, and managing cloud infrastructure on AWS and Azure. Skilled in automation, infrastructure as code, and cloud security best practices to support scalable and reliable applications.

Education:

- Bachelor of Science, Information Technology, University of Texas at Austin, 2020

Skills:

- Cloud Platforms: AWS (EC2, S3, Lambda, CloudFormation), Microsoft Azure, Google Cloud Platform
- Infrastructure as Code: Terraform, CloudFormation, ARM Templates
- Automation & CI/CD: Jenkins, GitHub Actions, Ansible
- Containerization & Orchestration: Docker, Kubernetes
- Monitoring & Logging: Prometheus, Grafana, CloudWatch, ELK Stack

Experience:

1. **Cloud Engineer, NexaCloud Solutions, Austin, TX** (Apr 2021 - Present)

- Designed and implemented AWS infrastructure using Terraform and CloudFormation templates, reducing provisioning time by 50%.
- Automated deployment pipelines with Jenkins and GitHub Actions, enabling continuous delivery and integration.
- Managed Kubernetes clusters for containerized applications, improving scalability and reliability.
- Monitored cloud environments and responded to incidents using CloudWatch and ELK Stack.

2. **Cloud Operations Associate, TechBridge Inc., Dallas, TX** (Jun 2020 - Mar 2021)

- Supported migration of legacy applications to Azure cloud, ensuring data security and minimal downtime.
- Created scripts for automated backups, patching, and monitoring of cloud resources.
- Assisted in setting up role-based access controls and compliance policies.

Projects:

- **Automated Infrastructure Provisioning:** Developed reusable Terraform modules for multi-environment cloud infrastructure setup across AWS and Azure.
- **Container Migration:** Led migration of legacy applications into Docker containers orchestrated by Kubernetes, improving deployment speed and resource utilization.

Certifications:

- AWS Certified Solutions Architect – Associate

- Microsoft Certified: Azure Administrator Associate
