**Name:** Alice Johnson

**Contact:** (555) 123-4567 | Seattle, WA

**Summary:**

Experienced Python Developer with 3+ years building backend services, automation scripts, and data pipelines. Proficient in Django, Flask, REST APIs, and data processing libraries. Strong background in writing clean, scalable code and collaborating in Agile teams.

**Education:**

- Bachelor of Science, Computer Science, University of Washington, 2021
- Associate Degree, Information Technology, Seattle Community College, 2018

**Skills:**

- Programming: Python, SQL, JavaScript
- Frameworks: Django, Flask, FastAPI
- Tools: Git, Docker, Jenkins, Postman
- Databases: PostgreSQL, MySQL, MongoDB
- Cloud: AWS (EC2, S3, Lambda), Azure

**Experience:**

1. **Python Developer, TechSolutions Inc.** (Jun 2022 - Present)
- Developed RESTful APIs using Django REST Framework supporting 20k+ daily users
- Automated ETL data workflows using Python scripts and Airflow, improving data accuracy by 25%
- Integrated third-party services and optimized backend performance with caching and async tasks
2. **Junior Software Engineer, WebApps LLC** (Jan 2021 - May 2022)
- Built and maintained Flask applications for client dashboards and reporting tools
- Collaborated with frontend developers to create seamless user experiences
- Wrote unit tests to improve code coverage and reliability

**Projects:**

- **Inventory Management System:** Designed backend APIs using Django, with role-based access control and real-time notifications
- **Web Scraper & Data Pipeline:** Developed Python scraper for e-commerce data and automated storage in PostgreSQL for analytics

**Certifications:**

- Certified Python Programmer (PCAP)
- AWS Certified Developer – Associate
